Experience

PROFESSIONAL

IT Consultant

UNIVERSITY OF GUELPH

Guelph, ON

Apr. 2018 - present

- Worked closely with other CCS teams to provide IT solutions to University clients in a variety of fields such as networking, security, operating systems, hardware, servers, databases, and software
- Analyzed, troubleshooted, and provided IT solutions to issues in a timely, professional manner and updated technical information in the service ticket accordingly
- Developed websites to document University IT services that comply with accessibility standards using Drupal

Cashier

HERO BURGER

Oakville, ON

Jun. 2013 - Sept. 2016

- Demonstrated effective communication skills with a friendly attitude towards customers and coworkers resulting in multiple returning clients
- Balanced the register with accuracy, assisted in the training of 4 new cashiers, monitoring cash limits and ensuring quality customer service at all times

PROJECT WORK

Founder and Lead Developer/Designer

MOTIVE

Guelph, ON

Mar. 2018 - present

- Created, designed, and implemented a map-based social networking application for iOS which allows users to post events onto a map in the form of *motives*, and to comment on or like other users' posts
- Gained experience as a full-stack developer from programming a Swift front-end and NoSQL/Node.js back-end to create a seamless application that updates users in real-time
- Conducted usability testing and applied the results to the front-end of the application to create a memorable user experience
- Currently in TestFlight beta, expected to publicly launch on the App Store early 2019
